Pack Glass Walkers

System Access: Secured. Protocol: Pack Consensus Beta-9. Tribe: Glass Walkers.
Location: The Sprawl.

We have deliberated. The Ragabash has stopped laughing, the Ahroun has holstered their sidearm, and the Philodox has reviewed the bylaws. As a pack of the Glass Walkers, we do not fear the Weaver's web; we hack it. We believe Gaia can be saved not by retreating to the caves, but by evolving with the concrete jungle.

Here is our consensus.

What motivates you most?

“*Debate:* The Ahroun wanted strength, the Philodox justice. But we agreed that without understanding the system, you cannot fix it.

- **Wisdom and understanding**

How do you view technology?

“*Consensus:* Unanimous. The other tribes fear the machine; we run the machine.

- **Embrace it and drive change**

Your ideal community would be:

“*Debate:* The Elders want hierarchy, but the city thrives on the flow of new data and people. Isolation is death.

- **Open to outsiders and diversity**

When faced with conflict, you prefer to:

“ *Debate:* Why use a claw when a bank transfer or a server crash does more damage? Even our Ahroun agrees that leverage beats brute force.

- **Outthink and manipulate**

How do you feel about rules and tradition?

“ *Consensus:* The Litany must survive, but the methods of the Dark Ages do not work in the 21st century. Adapt or die.

- **Adapt them to new times**

A corrupt official endangers the city. You:

“ *Debate:* Physical confrontation breaches the Veil. Destroying their reputation and finances is cleaner and more permanent.

- **Organize evidence and expose them**

You encounter a helpless animal suffering. You:

“ *Consensus:* We are not monsters. We are guardians. We fix what is broken.

- **Heal or comfort it, then teach others**

Your group is divided on a decision. You:

“ *Debate:* We run our pack like a board of directors. Every specialist has a voice.

- **Listen, mediate, and suggest options**

A stranger requests refuge. You:

Debate: Urban paranoia is a survival trait. We verify credentials before opening the firewall.

- **Approach cautiously, consult with peers**

You witness injustice. You:

“ *Consensus:* A direct assault is a trap. A calculated strike from the blind spot is a victory.

- **Plot a clever and discreet response**

Which resonates with you?

“ *Consensus:* The heartbeat of the city is the heartbeat of the Weaver, and the Cockroach is our guide.

- **Urban life and modern spirit**

For you, leadership should be:

“ *Debate:* Bloodlines mean nothing if you can't get the job done. Competence is king.

- **Earned through respect**

How do you treat secrets?

“ *Consensus:* Information is currency. You don't throw money out the window; you invest it.

- **Protect and use strategically**

How do you view modern human society?

Consensus: It is not trash to be burned. It is raw code that needs debugging.

- **Something to be transformed**

If given supernatural power, you'd:

“ *Consensus:* Healing is temporary. Fighting is endless. Changing the paradigm is how we win the War.

- **Revolutionize society**

End of Line. Pack Status: Synchronized.
